

WAXBROACH Plunger

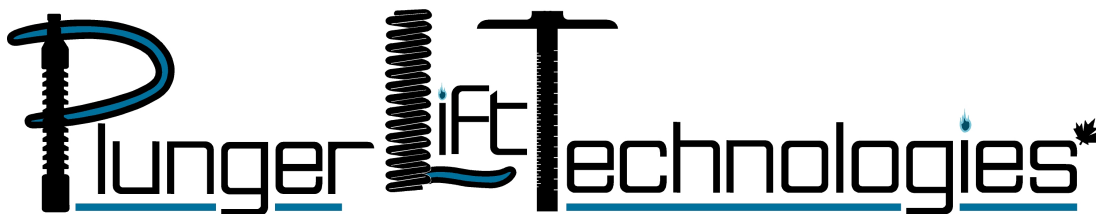

FEATURING A NEW AND
IMPROVED CUTTING PATTERN
DESIGNED TO CUT THROUGH
CONTAMINANTS WITH EASE

PLT Corp adds another incredible product to their lineup. Our engineers drew their inspiration from a wireline broach to bring you the latest in our line of Wax Cutters, the WaxBroach. With its unique honeycomb pattern, the WaxBroach cuts through your well contaminants with ease.

A wax cutting plunger with a honeycomb-patterned design, the WaxBroach is meant to slice through well contaminants with ease. Utilizing a unique design, the WaxBroach is capable of removing contaminants while traveling both up and down the well. This new gouging pattern is capable of handling even the toughest contaminants.
